Main Plot

The main plot of The Forest depends what mode you go into (see how to play on page 3 for more information).

18+ Mode

In the 18+ mode you face vampires trying to into the objective building (see how to play for more information about the objective building), race against them and get there first. Leave the forest or get there too late and the vampires win and remember, if you get caught, you will lose too.

-18 Mode

In the -18 mode you are playing a game of cops and robbers with your friends, with the objective building (see how to play for more information about the objective building), as the jail. Sneak around and evade the cops and try to free the other robbers to win the game! leave the forest, run out of time, or get caught by the cops to lose the game.
